

I am concerned that national radio services, specifically K-LOVE, may be in jeopardy if LPFM stations are given priority over current FM translator services. K-Love is one of the few family-oriented stations we can trust our kids to listen to where they won't be exposed to in appropriate banter. As a listener supported station, they offer a very high quality service which enhances the quality of life for hundreds of thousands people around this country daily. Our family loves this station and our kids are learning to appreciate music as we can trust them listening to K-LOVE without our guidance. Our community benefits not only from their programming but they are also very involved in community events and support many local programs and fundraising events. Please don't take this away from us.

Thanks, Pete Chandler
